A Bad Break.

Jo Curby was before Judge Johnston today on a charge of assault upon Harry Drager in the St. Louis Beer Hall. He pleaded guilty and sentence was deferred till this evening at 6 o'clock. The testimony went to show that Brown and Curby were having an altercation and Harry stepped in to preserve the peace. He received for his good intentions the full force of an arm chair on top of his head, from the hands of Jo Curby. The blow was a severe one and the friends of the injured man attended at once to having his head sewed up as soon as possible. Dr. Goodfellow performed the operation. Curby's defense was that the blow was aimed at Brown's head and that the striking of the peace maker was accidental.

It is education that makes all the difference between the men who dig in the ditch and the man who bosses the job. It is the superior qualities of Ayer's Sarsaparilla that give it its acknowledged pre-eminence over all other blood purifiers.

The Virginia Chronicle of Sept. 29, contains the following simple mention of the death of M. Stuart:

STUART—In this city, September 28, M. Stuart, a native of England, aged 53 years.
[Remains at Brown's undertaking rooms.]

Croup frequently finds a household unprepared for its visit, while the rapidity with which it develops calls for instant treatment. For this dangerous disease Ayer's Cherry Pectoral is an admirable remedy. It saves many lives every year. Keep it in the house.

There are no flies on Justice Frank Wells of Harqua Hala. Some time ago he commenced notifying parties who were living in a state of anti-Edmund's Act, that they must get married legally or he would have them up before the next grand jury. The hint has had the desired effect, as up to date he has performed eighteen or twenty marriage ceremonies and raked in a \$5 fee on each one.—Yuma Times.

A special train of 19 cars, each carrying 20 fat beeves, went out from Phoenix for San Bernardino, Los Angeles and other southern California towns. Every one of the 380 head were in prime condition. Two, picked out at random, weighed 1300 pounds each. Four others averaged 1,220 pounds. The shippers included R. L. Wright, J. L. Powell, Garner, Kellner and others.—Herald.

Statehood.

In the discussion over the time for holding the election for ratifying the constitution and the probability for admission before the next presidential election, [Smith said admission would not be allowed in any event until after that election. We might as well look such a fact squarely in the face. He thought however that the present Congress would admit Arizona with that limitation if the Constitution received a sufficient majority. But an early election should be held in order to get congressional action without trying to force that body. The constitution ought to reach Congress as shortly after the holidays as possible. Arizona must expect to make her fight single handed and alone. There was great opposition to the admission of New Mexico and Utah. We could not get on with them. Herring accepted the date proposed by Barnes on Congressman Smith's explanation.

Renounced Hopeless, yet saved.
From a letter written by Mrs. Ada E. Hurd of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for my Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at druggists.

Symptoms of Consumption.

WILLIAM J. SHARPLES, PORT ORAM, Morris Co., N. J., writes:

"My business is that of sharpening mine drills and I am much exposed to smoke and gas. About three years ago I began to have a bad cough, with considerable indigestion and pains in my chest. My physicians told me I had symptoms of consumption. By the advice of my father, an old friend of BRANDRETH'S PILLS, I commenced using that valuable remedy. By the time I had got through the second box I began to pass a very disagreeable humor or pus. I began to improve very rapidly after this, and grew stronger and better every day. My cough is now well. I sleep well at night and have no more indigestion.

"Nevada, or The Lost Mine" is the name of the play which the Dramatic club are rehearsing, for a night in the near future at Schieffelin hall.

There was a very alarming conflagration in the PROSPECTOR office this morning. The editor flew at it with a board, while the devil tried to screw the nozzle of the hose onto the hydrant, and another employee seized a watering pot without any bottom in it and endeavored to fill it with water while a fourth party subdued the flames with the office sponge. No insurance. The loss of celluloid boiler plate was very serious. Our readers will never again read the thrilling tale of "the frog and the ball of butter."

Eucopsy.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you Good Digestion and the demon Dyspepsia and its attendant ailments, Eucopsy. We recommend Electric Bitters for Dyspepsia and all diseases of the Stomach and Kidneys.

Mr. William Ellison Beck has received the appointment of Notary Public at Clifton from Acting Governor Murphy. Mr. Beck is well known in southern Arizona, having had some distasteful notoriety under the sobriquet of "Cyclone Bill." He claims, however, that he has now "taken a tumble to himself," and during the past six months has settled down to business in Clifton, spending his time reading law, and occasionally appearing before the justice's court in that precinct.—Solomonville Bulletin.

Heney's Examination.

The Citizen of yesterday says that the day's testimony showed a desire on the part of the defendant to bring out that Dr. Handy had at various times and to various people threatened the life of Frank Heney.

The witnesses examined were Dr. F. H. Goodwin, Brewster Cameron Chas. R. Drake, John Weigle, Eugene Behrendt and L. C. Hughes.

Dr. Goodwin testified that while riding in a buggy with Dr. Handy, Dr. Handy had threatened to kill Heney, using at the same time a very strong adjective which was understood to be meant for Heney. He then testified that he told Dr. Handy that as friend to both Heney and Handy he would inform Heney of what had been said and consequently he did.

Mr. Cameron's testimony was that on four distinct occasions, and with strong and abusive language Dr. Handy had threatened to kill Heney should he take the case of Mrs. Handy.

Eugene Behrendt testified that he saw young Roca remove Dr. Handy's revolver.

Deputy Weigle saw a bruise mark on Heney's face subsequent to the affray.

Dr. Acker's English Pills.

Two are active, effective and pure. For sick headache, disordered stomach, loss of appetite, bad complexion and biliousness, they have never been equaled, either in America or abroad.

The cold weather gives us an appetite. This demand of nature makes one study where to turn for something beyond the ordinary food, with the result that the Can Can restaurant has a full house all of the time. To-morrow they will set before their patrons everything possible to obtain to tempt the palate and appease the appetite.
